Sir:

Enclosed herewith is a copy of the cover sheet and claims of PCT Publication WO 2004/101252 of PCT Application Serial No. PCT/US2004/014423 having an International filing date of May 7, 2004. Further enclosed is a copy of the International Search Report for that PCT application. As seen from the PCT publication, claims 141 to the end share some correspondence with the claims of the present application. The International Search, however, focused on different subject matter claims (e.g., hinged front access door for film drive assembly as exemplified in U.S. Patent Application 10/717,997 filed November 21, 2003). A check of the cited International Search Report references reveals that U.S. 5,727,370 was earlier cited in this case and the two U.S. publications are directed at the hinged access feature and thus not deemed relevant to this case. U.S. Patent No. 5,335,483 is cited in the accompanying PTO-1449 as it does include a foam-in-bag end sealer assembly.

As an action on the merits has yet to be received, no fees are deemed associated with this Information Disclosure Statement filing.

Respectfully submitted,  
SMITH, GAMBRELL & RUSSELL, LLP
